MOTOR VEHICLE TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These Applicants have been found to meet the fitness requirements pursu-

ant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles with the prescribed filing fee, within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication that satisfies that Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

MOTOR VEHICLE TRANSPORT ACT, 1987

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chap-

ter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

(3) This Regulation is a Sectoral Effluent Monitoring Regulation within the meaning of the General Effluent Monitoring Regulation.

(4) An obligation on a direct discharger to do a thing under this Regulation is discharged if another person has done it on the direct discharger's behalf. O. Reg. 435/89, s. 3.

COMBINED SAMPLING

4.—(1) A direct discharger who, by the 1st day of November, 1989, satisfies the Director that it would be unduly difficult to collect samples from a process effluent stream, may, instead of collecting a set of samples from that process effluent stream as otherwise

required by this Regulation, collect composite samples from each of the streams that combine to make up that process effluent stream, combine those composite samples in proportion to flow and collect a set of samples from that combination, referred to in this section and in subsection 6 (2) as a set of combined samples.

(2) A direct discharger who collects a set of combined samples in accordance with subsection (1) instead of collecting a set of samples from a process effluent stream shall analyze the set of combined samples as if it were the set of samples from the process effluent stream.

(3) The General Effluent Monitoring Regulation applies in relation to streams from which composite

samples are collected under subsection (1) as if those streams were process effluent streams, and in relation to sampling points on streams from which composite samples are collected under subsection (1) as if those sampling points were process effluent sampling points. O. Reg. 435/89, s. 4.

MONITORING PRINCIPLES

5.—(1) Each direct discharger shall carry out the monitoring obligations of this Regulation, including the sampling, analysis, toxicity testing, flow measurement, recording and reporting obligations of this Regulation, in accordance with the General Effluent Monitoring Regulation.

(2) Each direct discharger shall carry out the sampling and analytical obligations in relation to samples to be analyzed for parameters in analytical test groups 26, PP1, PP2 and PP3 in accordance with Schedules 1 and 2.

(3) Instead of the minimum sample volumes set out in Column 5 of Schedule 2 to the General Effluent Monitoring Regulation and in Column 5 of Schedule 1 to this Regulation, a direct discharger may submit to a laboratory analyzing samples under this Regulation the minimum sample volumes required by that laboratory to meet the analytical method detection limits set out in Column 6 of Schedule 3 to the General Effluent Monitoring Regulation and in Column 6 of Schedule 2 to this Regulation.

(4) Where a direct discharger is required to collect a set of samples, the discharger shall collect the number of samples needed to perform all of the analyses required in relation to that set of samples. O. Reg. 435/89, s. 5.

SAMPLING POINTS

6.—(1) Each direct discharger shall, by the 1st day of November, 1989, establish a sampling point on each effluent stream of that discharger as follows:

1. A backwash effluent sampling point on each backwash effluent stream.
2. A cooling water sampling point on each cooling water effluent stream.
3. A process effluent sampling point on each process effluent stream.
4. A storm water sampling point on each storm water effluent stream that drains a catchment area with one or more of the following uses:

- i. Bark storage,
- ii. Bulk storage and unloading,
- iii. Chip storage,

- iv. Coal storage,
- v. Waste disposal,
- vi. Waste paper storage,
- vii. Wood storage.

5. A waste disposal site effluent sampling point on each waste disposal site effluent stream that drains a waste disposal site that regularly discharges waste disposal site effluent.

6. An emergency overflow effluent sampling point on each emergency overflow effluent stream.

(2) A direct discharger who collects sets of combined samples in accordance with subsection 4 (1) instead of collecting sets of samples from a process effluent stream shall, by the 1st day of November, 1989, establish a sampling point on each of the streams that combine to make up that process effluent stream, and, despite paragraph 3 of subsection (1), need not establish a sampling point on that process effluent stream.

(3) A direct discharger who has more than one catchment area with a land use of bark storage may, by the 1st day of November, 1989, instead of establishing sampling points on storm water effluent streams originating from each such catchment area as required by paragraph 4 of subsection (1), establish sampling points only on storm water effluent streams originating from the largest of them.

(4) Subsection (3) applies with necessary modifications where a direct discharger has more than one catchment area with a land use of chip storage, where a direct discharger has more than one catchment area with a land use of waste paper storage and where a direct discharger has more than one catchment area with a land use of wood storage.

(5) A waste disposal site that discharges waste disposal site effluent only as a result of precipitation is not a waste disposal site that regularly discharges waste disposal site effluent within the meaning of paragraph 5 of subsection (1).

(6) Each direct discharger shall use the sampling points established under subsections (1), (2), (3) and (4) for all sampling required by this Regulation, except that a direct discharger may use alternate sampling points where that is acceptable to the Director.

(7) Each direct discharger shall collect each sample from a process effluent sampling point as a composite sample.

(8) Each direct discharger shall collect each sample required to be collected from a cooling water sampling point by one of the means described in clauses 3 (4) (a), (b), (c), (d) and (e) of the General Effluent Monitoring Regulation.

(9) Each direct discharger shall collect each sample required to be collected from a backwash effluent sampling point, a storm water sampling point, an emergency overflow effluent sampling point or a waste disposal site effluent sampling point,

(a) by one of the means described in clauses 3 (4) (a), (c) and (e) of the General Effluent Monitoring Regulation; or

(b) by taking one grab sample.

(10) Except as otherwise specifically provided, sets of samples required to be collected under this Regulation need not be collected on the same day. O. Reg. 435/89, s. 6.

DAILY MONITORING—PROCESS EFFLUENT—ALL CATEGORIES

7.—(1) During each operating day, each direct discharger shall collect a set of samples from each process effluent sampling point of that discharger, and shall analyze each such set for the parameters indicated in the daily column of Schedule A.

(2) Subsection (1) does not apply in respect of any day on which a sufficient volume of sample cannot be collected because of the collection of inspection samples. O. Reg. 435/89, s. 7.

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

AUTHORITY

This document is prepared under the authority of the Planning Act and is the Province of Ontario's Policy Statement on Land Use Planning for Housing.

This Provincial Policy Statement:

- does not supercede or take priority over other policy statements issued under section 3 of the Planning Act, or any other policy approved by the Lieutenant Governor in Council;
- takes effect as of August 1, 1989.

DEFINITIONS

For the purposes of this Policy Statement:

Accessory Apartments means:

Self-contained apartments created through converting part of or adding on to existing homes (single detached, semi-detached, duplexes, triplexes, row houses, etc.).

Affordable means:

Annual housing costs (gross rent, or mortgage principle and interest (amortized over 25 years and assuming a 25% down payment) and taxes) which do not exceed 30% of gross annual household income.

Affordable Housing means:

Housing which would have a market price or rent that would be Affordable to households of low and moderate income. Households of low and moderate income are defined as households within the lowest 60 percent of the income distribution for the Housing Region. Affordable Housing could also include any government assisted housing recognized, from time to time, as Affordable Housing by the Minister of Housing.

Housing Region means:

The area defined by the Ministry of Housing in an annual Information Bulletin for the purpose of identifying the 60th percentile of household incomes to be used by each municipality in the Housing Region, for the purposes of defining Affordable Housing.

These regions have been determined based on Statistics Canada housing labour market area boundaries (Census Metropolitan Areas and Census Areas), along with contiguous Census Divisions (Counties, Regions) where income variations between the Census Divisions at the 60th percentile are within tolerable limits.

New Residential Development means:

Creation of New Residential Units on vacant land, where development has not previously taken place.

New Residential Units means:

Residential Intensification means:

The creation of New Residential Units or accommodation in existing buildings or on previously developed, serviced land generally including:

- creation of rooming, boarding and lodging houses;
- creation of Accessory Apartments;
- conversion of non-residential structures to residential use;
- Infill;
- Redevelopment.

Zoning Standards means:

The provisions currently found in zoning by-laws such as (but not limited to): lot size; unit size; setbacks; lot coverage; parking requirements; density; etc.

BACKGROUND

It is essential to Ontario's economic and social well-being that a sufficient supply of housing be available — housing that is affordable, accessible, adequate and appropriate to the needs of the full range of households across the Province.

Several trends contribute to the need for housing.

The population of Ontario is expected to continue to grow significantly, largely as a result of immigration from outside Canada and migration from other provinces.

As well, household growth and composition is changing. As the population ages and family patterns change, the number of smaller households is expected to increase substantially. Housing supply has not adequately responded to all of these needs.

Growth pressures are experienced primarily, but not exclusively, in the major urban centres of the Province. The most critical effects are likely to continue to be felt in the urban areas of Southern Ontario, with less pressure being experienced in some small or rural municipalities in the Province.

Land use planning must respond effectively to these housing needs. The land use planning process is an important element of the overall response to changing housing needs — it must help to advance provincial housing objectives, rather than impede them.

All municipalities and planning jurisdictions must take into account the housing needs of the broader community; all Ontarians must have the assurance that their housing needs are considered at every stage of the planning process.

This Policy Statement addresses the relationship between housing and the land use planning process. To achieve housing objectives, the Policy Statement deals with the following issues which can be addressed through land use regulation:

- the supply of land for residential development;
- the land use planning approval process;
- land use standards which regulate the range of housing types which can be provided;
- the effective use of existing building stock and previously developed land for new housing.

Under the Planning Act, a Policy Statement is the mechanism used by the Province to establish provincial expectations regarding matters relating to land use planning. This Policy Statement describes how the foregoing housing issues are to be addressed by planning jurisdictions in Ontario using the authority under the Planning Act, including:

- official plan policy;

- zoning provisions; and,
- the development approvals process.

This Policy Statement recognizes that many factors which are outside of the control of the land use planning framework must also contribute to the provision of an adequate supply of reasonably priced housing in our communities. The most obvious of these factors is the operation of the housing market itself. As well, land use planning regulations cannot regulate such matters as: the price of housing; whether housing is owned or rented; or, who can occupy a dwelling. However, by establishing appropriate policies, regulations and approval procedures, municipalities and other planning jurisdictions can create the opportunity for a range of housing types to be built.

BASIS OF THE POLICY

Objectives:

- A. To foster municipal land use planning practices which are responsive to housing needs throughout the Province.
- B. To contribute, along with other provincial initiatives, to the overall goal of providing a sufficient supply of a range of housing types which are accessible, affordable, adequate and appropriate to the needs of the full range of households in Ontario.

Principles:

- A. Each planning jurisdiction has a responsibility to contribute to fulfilling the objectives of this Policy Statement.
- B. A sufficient supply of land for housing purposes should be planned for in order to help make land available for development at a more reasonable cost.
- C. The planning approvals process should be streamlined to help reduce the cost of housing by allowing the market to respond effectively to housing demands and to reduce the land carrying costs associated with housing construction.
- D. Land use regulations should allow for a full range of housing types and sizes in order to provide the opportunity for more households to be appropriately and affordably housed.
- E. New residential units should be planned for in established communities in order to produce housing efficiently and cost-effectively by maximizing existing resources, both in building stock and community and physical services.

POLICIES

It is the policy of the Province of Ontario that:

1. *GENERAL*

- 1.1 All planning jurisdictions, including municipalities and planning boards, consider the implications of their actions on the availability of housing to meet future local, regional and provincial needs.**

2. *SUPPLY OF LAND*

- 2.1 All municipalities and planning boards maintain a supply of land for future residential use by:**

- a. designating sufficient lands for residential use, in the official plan, so that at least a ten-year supply of residential land is maintained at all times;**

The amount of land to be designated will be based on:

- i. A planning jurisdiction's reasonable share of the overall population growth and increased number of households in the broader community, reflecting the demographic and economic forecasts affecting the planning jurisdiction over a twenty-year time-frame;
 - ii. existing servicing capacity and future planned servicing expansion required to accommodate household growth for twenty years;
 - iii. residential densities to accommodate the range of housing types identified in accordance with section 4.1;
 - iv. the potential for Residential Intensification identified in accordance with section 5.1.
- b. incorporating servicing policies in the official plan, to identify how growth on the lands designated for residential use will be accommodated;**

These servicing policies will address:

- i. existing servicing capacity;
- ii. servicing improvements necessary to accommodate household growth over the twenty-year planning time-frame;
- iii. implementation of future servicing improvements.

- c. establishing a target, to be reflected in the official plan, to maintain at least a continuous three-year supply of a combination of draft approved and/or registered lots and blocks on plans of subdivision in New Residential Development.

2.2 In regional municipalities and counties where the upper tier municipality is responsible for providing piped water and sewers, the upper tier official plan specify:

- a. how much residential growth will occur, in accordance with section 2.1.a., in each area municipality within its jurisdiction;
- b. servicing allocations and planned servicing improvements for all municipalities within its jurisdiction, identified in accordance with Section 2.1.b.

3. *STREAMLINING THE PLANNING PROCESS*

3.1 All municipalities and planning boards reduce the time to process residential applications, to the greatest extent practical by:

- a. adopting a guideline outlining time frames and procedures at each stage of the approval process;

This guideline will be based on information provided from time to time by the Ministry of Municipal Affairs;

- b. incorporating a policy in the official plan to:
 - i. indicate council/planning board commitment to adhere to the procedural guidelines; and,
 - ii. include time frames, identified in the procedural guidelines, for each stage of the approval process.

4. *RANGE OF HOUSING TYPES*

4.1 All municipalities and planning boards provide for a range of housing types, in New Residential Development and Residential Intensification by:

- a. designating lands in the official plan specifying, at least, appropriate residential uses and densities;

These land use designations will be based on:

- i. housing needs, taking into consideration household size and income of new households expected in accordance with section 2.1.a., normally identified in a Municipal Housing Statement;

- ii. the forms of housing which could be produced by the market or with government assistance to meet these housing needs;
 - iii. the forms and proportion of housing, identified as Affordable Housing in section 4.2.
- b. establishing policies in the official plan so that the range of housing types, including the forms of housing identified as Affordable Housing in accordance with section 4.2., is distributed throughout the municipality/planning area on lands designated for residential use, but is not necessarily included in every application for New Residential Development or Residential Intensification;
- c. incorporating implementation policies in the official plan to assist in achieving the identified range of housing types;
- d. zoning lands to accommodate the range of housing types identified in the official plan, by:
- i. establishing zones which permit the identified range of housing types;
 - ii. including zoning standards such as, but not limited to, residential densities, minimum lot standards, and unit and building areas and sizes, to permit the development of the identified range of housing types, and by eliminating any zoning standards which serve to preclude uses permitted by the official plan;
 - iii. where minimum unit size standards are provided, including standards which do not exceed those established in the Ontario Building Code for the protection of health and safety.

4.2 All municipalities and planning boards establish appropriate planning policies and standards which will enable at least 25% of New Residential Units resulting from New Residential Development and Residential Intensification through conversion of non-residential structures, Infill and Redevelopment, to be Affordable Housing, by:

- a. identifying the forms of housing which could be developed as Affordable Housing;

These forms of housing are to be locally determined based on an analysis of:

- i. incomes up to the 60th percentile in the Housing Region;
- ii. the full range of housing needs for households within the lowest 60 percent of the income distribution for the Housing Region;

- iii. a range of housing prices/rents to meet these needs;
- iv. expected housing production costs and market prices/ rents;
- v. the ability of the market to produce housing to meet the Affordable Housing definition;
- vi. the amount of government-assisted housing needed in the municipality, normally identified in a Municipal Housing Statement.

5. *RESIDENTIAL INTENSIFICATION*

5.1 All municipalities and planning boards identify opportunities to increase the supply of housing through better use of existing resources, buildings or serviced sites to meet changing demographic trends and housing demands, and adopt a strategy to make use of those opportunities, by:

- a. designating areas in the official plan where each form of Residential Intensification will be permitted;**

These uses are to be permitted in areas which meet the following criteria:

- i. the physical potential of the existing building stock or previously developed sites can accommodate the identified forms of Residential Intensification;
 - ii. the existing services can support new households in the affected area; and,
 - iii. the potential demand for these forms of accommodation, based on the housing needs of the composition of households in the broader community, in relation to the typical characteristics of units which could be produced through the various forms of Residential Intensification, can be demonstrated.
- b. including zoning provisions to permit rooming, boarding and lodging houses, and Accessory Apartments as-of-right where they are permitted uses in the official plan;**
 - c. adopting policies and development standards for New Residential Development so that alterations to create additional units in new building stock can take place in the future, as needs change within those communities, in keeping with the principles identified in 5.1.a.**

6. *MONITORING*

- 6.1** All municipalities and planning boards monitor how the provisions of this Policy Statement are being achieved, by:
- a.** adopting procedures to review:
 - i.** the adequacy of the supply of land, at least every five years;
 - ii.** the range of housing forms produced through New Residential Development and Residential Intensification, annually;
 - iii.** house prices for each housing form relative to income distribution for the Housing Region, annually;
 - iv.** how targets for processing of land use planning applications are being achieved, every two years;
 - b.** preparing a report to be endorsed by council on the results of the review conducted in accordance with section 6.1.a.;
 - c.** updating planning documents and development approval procedures on the basis of the review conducted in accordance with section 6.1.a., as necessary, to maintain consistency with the intent of this Policy Statement;
 - d.** incorporating a policy in the official plan to outline municipal/ planning board commitment to implement the provisions of this section.

7. *APPLICATION OF THE POLICY STATEMENT*

- 7.1** Counties with official plans may implement those policies in this Policy Statement relating to official plans, within the county official plan, on behalf of any or all municipalities within its jurisdiction, at the request of the council of the affected municipality.
- 7.2** Townships and villages with populations below 5,000 may use alternative approaches to reflect the Principles and to fulfill the Objectives of this Policy Statement except:
- i.** villages bounded by a township with a population in excess of 5,000;
 - ii.** those townships and villages within the Census Metropolitan Areas of London, Toronto and Windsor.
- 7.3** Alternative approaches to implementing the Principles and fulfilling the Objectives of this Policy Statement may be adopted by planning boards, except for those portions of planning areas, which are either cities or towns.

DISPOSITIONS HABILITANTES

Le présent document est préparé en vertu de la Loi sur l'aménagement du territoire et constitue la déclaration de principes de la province de l'Ontario sur l'aménagement du territoire pour le logement.

La présente déclaration de principes de la province :

- est publiée conjointement par le ministère du Logement et par le ministère des Affaires municipales;
- ne l'emporte sur aucune déclaration de principes publiée en vertu de l'article 3 de la Loi sur l'aménagement du territoire ni sur aucune autre politique approuvée par le lieutenant-gouverneur en conseil;
- entre en vigueur le 1^{er} août 1989.

DÉFINITIONS

Dans le cadre de la présente déclaration, on entend par :

Logement secondaire

Tout logement indépendant créé par la transformation d'une partie d'un édifice (unifamilial, jumelé, en rangée, contenant plusieurs logements etc.) ou par l'agrandissement de cet édifice.

Prix abordable

Les frais annuels de logement (à savoir le loyer brut ou le versement hypothécaire au titre du principal et de l'intérêt d'une hypothèque amortie sur 25 ans en supposant un acompte initial de 25 %, majoré des impôts y afférents) qui ne dépassent pas 30 % du revenu annuel brut du ménage.

Logement abordable

Tout logement dont le prix du marché ou le loyer est abordable pour un ménage à revenu faible ou moyen. Par ménage à revenu faible ou moyen, on entend un ménage dont le revenu se situe dans les 60 centiles de la courbe des revenus de la région de logement. Par logement abordable, on entend également tout logement subventionné par la province, que le ministre du Logement désigne de temps à autre comme logement abordable.

Région

Toute région que le ministère du Logement définit dans un bulletin annuel d'information aux fins d'identifier les revenus inférieurs au 60^e centile sur lequel se fonde chaque municipalité de la région de logement pour définir un logement abordable. On détermine ces régions en fonction des démarcations par Statistique Canada dans le marché de l'immobilier (région métropolitaine de recensement et zone du recensement), ainsi que des limites de démarcation contiguës du recensement (comtés, régions) où l'écart entre les divisions du recensement au 60^e centile de revenu se situe dans les limites acceptables.

Insertion

Exploitation de terrains vierges ou sous-utilisés situés dans une zone déjà exploitée dans le but d'y construire des habitations neuves supplémentaires.

Nouvelle exploitation résidentielle

La construction d'habitations sur des terrains vierges, qui n'ont pas encore été exploités.

Habitations neuves

Toute habitation destinée principalement à servir de résidence principale.

Réexploitation

La construction d'habitations sur des terrains jusque là à usage résidentiel ou non, se trouvant dans des collectivités établies, et déjà débarrassés des ouvrages qu'ils portaient ou sur le point de l'être.

Concentration résidentielle

La création d'habitations ou de locaux à usage d'habitation dans des immeubles existants ou sur des terrains déjà exploités et viabilisés, notamment :

- la création de maisons de chambres et de pensions,
- la création de logements secondaires,
- la transformation d'immeubles non résidentiels en immeubles résidentiels,
- le remplissage,
- la réexploitation.

Normes de zonage

Les dispositions actuellement prévues aux règlements de zonage, telles que, entre autres : les dimensions; la superficie des lots; les dimensions des habitations; la marge de reculement; les exigences relatives au stationnement; la densité; etc.

CONTEXTE

La santé de l'économie de l'Ontario et le bien-être de notre société exigent que les ménages ontariens aient accès à un nombre suffisant de logements abordables, appropriés et convenant à leurs besoins variés.

Plusieurs tendances vont accroître les besoins en matière de logement.

On prévoit que la population de l'Ontario va continuer à augmenter considérablement, surtout en raison de l'immigration interne et en provenance de l'étranger.

En outre, la croissance et la composition des ménages évoluent. Le vieillissement de la population et la modification de la composition des familles entraînent une augmentation considérable du nombre des petits ménages. L'offre de logements n'a pas permis de combler tous ces besoins de manière appropriée.

Les pressions découlant de cette croissance ont été les plus fortes dans les grandes agglomérations de la province, bien qu'elles se fassent sentir un peu partout. On prévoit que les effets les plus graves continueront à toucher les agglomérations du sud de l'Ontario et, moins fortement, certaines municipalités plus petites ou rurales.

L'aménagement du territoire doit répondre de manière efficace aux besoins en matière de logement. Le processus de la planification de l'utilisation du sol constitue un élément important des mesures globales visant à combler ces besoins : il doit favoriser la réalisation des objectifs de la province en matière de logement, et non y faire obstacle.

Toutes les municipalités et tous les organismes d'aménagement doivent tenir compte des besoins de la collectivité tout entière en matière de logement. La population de l'Ontario doit être sûre que l'on tient compte de ses besoins en matière de logement à chaque stade du processus de planification de l'utilisation du sol.

La présente déclaration de principes examine le rapport qui existe entre le logement et le processus de planification de l'utilisation du sol. Pour atteindre les objectifs visés en matière de logement, la déclaration de principes traite des questions suivantes, que l'on peut résoudre au moyen de la réglementation régissant l'aménagement du territoire :

- la disponibilité de terrains destinés à l'exploitation résidentielle;
- le processus d'autorisation de l'utilisation du sol;
- les normes en matière d'utilisation du sol qui régissent la gamme des catégories de logements offerts;
- l'utilisation efficace des immeubles existants et des terrains déjà exploités afin d'offrir des logements neufs.

En vertu de la Loi sur l'aménagement du territoire, la déclaration de principes est le mécanisme que la province utilise pour préciser ses attentes en matière d'aménagement du territoire. La présente déclaration de principes énonce les moyens à la disposition des organismes d'aménagement de l'Ontario pour résoudre les questions susmentionnées relatives au logement grâce aux pouvoirs que leur confère la Loi sur l'aménagement du territoire, notamment en ce qui concerne :

- les principes directeurs du plan officiel;
- le règlement de zonage; et
- le processus d'autorisation de l'exploitation des terrains.

La présente déclaration de principes reconnaît l'existence de nombreux facteurs qui dépassent le cadre de l'aménagement du territoire et qui contribuent également à satisfaire la demande de logements abordables dans nos collectivités. Le marché de l'immobilier lui-même est le plus évident de ces facteurs. En outre, les règlements régissant l'aménagement du territoire n'ont aucun effet sur des questions comme le prix des logements, le nombre des propriétaires et des locataires ou le choix d'un locataire. Cependant, les municipalités et les organismes d'aménagement peuvent favoriser la construction de toutes sortes de logements, en se dotant de principes directeurs, de règlements et d'un processus d'autorisation appropriés.

FONDEMENT DE LA POLITIQUE

Objectifs :

- A. Encourager des pratiques sur le plan de l'aménagement du territoire qui répondent aux besoins de l'ensemble de la province en matière de logement.
- B. Favoriser, de concert avec d'autres mesures de la province, l'atteinte du but global qui est de fournir un nombre suffisant de logements abordables, de toutes les catégories, appropriés et convenables aux besoins variés de tous les ménages de l'Ontario.

Principes :

- A. Tous les organismes d'aménagement participent à la réalisation des objectifs de la présente déclaration de principes.
- B. Il convient d'affecter suffisamment de terrains à des fins de logements pour réduire les coûts de revient des lotissements.
- C. Il convient de rationaliser le processus d'autorisation de l'utilisation du sol afin de réduire le coût des logements en permettant au marché de combler efficacement la demande de logements et de réduire les frais de financement de terrains pendant la construction des logements.

- D. Il convient de faire en sorte que la réglementation de l'aménagement du territoire favorise la construction de logements de toutes catégories et de toutes superficies, afin de permettre à davantage de ménages de se procurer un logement convenable à un prix abordable.
- E. Il convient de planifier la construction d'habitations dans des collectivités actuelles en utilisant de manière efficace et rentable les ressources existantes en ce qui concerne le stock d'immeubles et les services physiques et communautaires.

PRINCIPES DIRECTEURS

La province de l'Ontario a pour politique ce qui suit :

1 GÉNÉRALITÉS

- 1.1 Tous les organismes d'aménagement, y compris les municipalités et les conseils d'aménagement, tiennent compte des effets de leurs décisions sur l'accessibilité des logements dans le but de répondre aux besoins locaux, régionaux et provinciaux.

2 DISPONIBILITÉ DES TERRAINS

- 2.1 Les municipalités et les conseils d'aménagement réservent un nombre suffisant de terrains à l'usage résidentiel futur :

- a) en affectant dans leur plan officiel suffisamment de terrains à la construction résidentielle, pour assurer, en tout temps, une réserve minimale d'au moins dix ans;

Le nombre des terrains ainsi affectés est fonction :

- (i) de la proportion de la croissance globale de la population et de l'augmentation du nombre des ménages dans la collectivité qui revient, de manière raisonnable, à l'organisme d'aménagement selon les prévisions démographiques et économiques visant une période de vingt ans qui touchent cet organisme;
- (ii) de la mesure dans laquelle ces terrains sont viabilisés et de l'augmentation de la superficie viabilisée, qui est nécessaire pour répondre à la croissance du nombre des ménages au cours d'une période de vingt ans;
- (iii) des densités résidentielles qui conviennent à l'éventail des types de logements, conformément aux modalités du paragraphe 4.1;

- (iv) des possibilités de concentration résidentielle, conformément aux modalités du paragraphe 5.1;
- b) en incluant au plan officiel des principes directeurs à l'égard des directives de la viabilité des terrains pour préciser les moyens de favoriser la croissance de l'utilisation des terrains affectés à l'usage résidentiel;

Ces principes directeurs doivent tenir compte :

- (i) de la viabilité des terrains actuels;
- (ii) de l'amélioration de la viabilité voulue pour satisfaire les besoins découlant de la croissance du nombre des ménages au cours de la période de planification de vingt ans;
- (iii) de la mise en oeuvre des mesures assurant la viabilité future des terrains;
- c) en se fixant l'objectif, dont tient compte le plan officiel, de prévoir aux plans de lotissement de nouvelles exploitations résidentielles, un nombre suffisant de pièces et lots approuvés provisoirement et enregistrés pour une période d'au moins trois ans.

2.2. Le plan officiel de la municipalité de palier supérieur des municipalités régionales et des comtés où la municipalité du palier supérieur est chargée de fournir les adductions d'eau et les égouts précise :

- a) la croissance résidentielle prévue, conformément aux modalités de l'article 2.1.a, dans chaque municipalité locale qui relève d'elle;
- b) le nombre des terrains viabilisés actuels et nécessaires à l'avenir pour toutes les municipalités relevant de sa compétence, conformément aux modalités de l'article 2.1.b.

3 *RATIONALISATION DU PROCESSUS D'AUTORISATION DE L'UTILISATION DU SOL*

3.1 Les municipalités et les conseils d'aménagement s'efforcent de réduire le plus possible les délais d'autorisation des demandes de constructions résidentielles :

- a) en adoptant une ligne directrice qui précise les délais et les modalités de chaque étape du processus d'approbation;

Cette ligne directrice se fonde sur l'information diffusée de temps en temps par le ministère des Affaires municipales;

- b) en annexant au plan officiel une déclaration de principes :

- (i) énonçant l'engagement du conseil municipal/d'aménagement à respecter les lignes directrices touchant les modalités du processus;
- (ii) précisant les délais, établis dans les lignes directrices du processus d'autorisation, pour chaque étape de ce processus.

4 ÉVENTAIL DES TYPES DE LOGEMENTS

4.1 Les municipalités et les conseils d'aménagement doivent prévoir la construction d'un éventail de types de logements dans les zones de nouvelles exploitations résidentielles et de concentration résidentielle :

- a) en précisant, au moins, dans la désignation des terrains dans leur plan officiel, l'utilisation résidentielle et les taux de densité convenables;

Ces désignations de l'utilisation du sol se font en fonction :

- (i) des besoins en matière de logement, en tenant compte de la taille et du revenu des nouveaux ménages, conformément aux dispositions du paragraphe 2.1.a.; ces besoins se retrouvent d'ordinaire dans l'exposé de principes des municipalités sur le logement;
 - (ii) des types de logements qui verront le jour grâce au marché de l'immobilier ou grâce aux subventions gouvernementales pour combler ces besoins;
 - (iii) des formes et de la proportion des logements désignés comme logements abordables à l'article 4.2;
- b) en incluant, dans le plan officiel, des principes directeurs propres à assurer la répartition de l'éventail des types de logements, y compris les logements désignés comme logements abordables conformément aux dispositions du paragraphe 4.2, dans l'ensemble de la municipalité et de la zone d'aménagement sur les terrains affectés à l'usage résidentiel, mais pas nécessairement leur inclusion dans chaque demande de nouvelle exploitation résidentielle ou de concentration résidentielle;
 - c) en incluant au plan officiel des principes de mise en oeuvre susceptibles de favoriser la construction de l'éventail des types de logements visés;
 - d) en effectuant le zonage des terrains en fonction de l'éventail des types de logements visés au plan officiel, par les moyens suivants :
 - (i) l'établissement de zones permettant la construction de l'éventail des types de logements visés;

- (ii) l'adoption de normes de zonage en matière, entre autres, de densité résidentielle, de dimensions minimales des lots, d'emplacement et de dimensions des habitations et des immeubles dans le but de la construction de l'éventail des types de logements visés et la révocation de toutes les normes de zonage qui ont pour effet de restreindre l'utilisation permise par le plan officiel;
- (iii) l'adoption de normes en matière de dimensions minimales des habitations, le cas échéant, qui ne sont pas plus strictes que celles du Code du bâtiment de l'Ontario qui visent les questions de santé et de sécurité.

4.2 Toutes les municipalités et les conseils d'aménagement adoptent des principes directeurs et des normes d'aménagement du territoire qui assureront qu'au moins 25 % du nombre total des nouvelles habitations construites dans le cadre d'une nouvelle exploitation résidentielle et d'une concentration résidentielle grâce à la conversion d'édifices non résidentiels, à l'insertion et à la réexploitation soient des logements abordables. Pour ce faire, ces organismes :

- a) précisent toutes les formes de logements pouvant être construits à titre de logements abordables;

Ces types de logements sont déterminés à l'échelon local en fonction d'une analyse :

- (i) des revenus inférieurs au 60^e centile des revenus de la région;
- (ii) de la gamme complète des besoins en matière de logement des ménages dont le revenu se situe dans les 60 centiles de la courbe des revenus de la région;
- (iii) d'un éventail de prix de maisons et de loyers susceptibles de satisfaire ces besoins;
- (iv) du prix de revient estimatif de la construction, ainsi que du prix des maisons et des loyers selon le marché;
- (v) de la capacité du marché de produire des logements qui satisfont aux critères de la définition d'un logement abordable;
- (vi) du nombre de logements subventionnés par l'État dont la municipalité a besoin et qui figure normalement à l'exposé de principes des municipalités sur le logement.

5 *CONCENTRATION RÉSIDENTIELLE*

5.1 Les municipalités et les conseils d'aménagement trouvent le moyen d'accroître le nombre de logements disponibles grâce à une meilleure utilisation des ressources, immeubles ou terrains viabilisés actuels pour satisfaire les besoins découlant de l'essor démographique et de la demande de logements. Ils se dotent aussi d'une stratégie susceptible de leur permettre de tirer parti de ces possibilités. Pour ce faire :

- a) ils prévoient au plan officiel des zones qui permettent toutes les formes de concentration résidentielle;

Ces utilisations sont permises dans les zones qui satisfont aux critères suivants :

- (i) les caractéristiques physiques des immeubles actuels ou des terrains déjà exploités permettent les diverses formes de concentration résidentielle;
- (ii) les services publics actuels peuvent soutenir une population accrue dans la zone en cause; et
- (iii) on peut cerner la demande éventuelle d'habitations de cette sorte, en comparant les besoins en matière de logement et la composition des ménages de l'ensemble de la collectivité, aux caractéristiques typiques des habitations pouvant être produites par les diverses formes de concentration résidentielle;

- b) ils modifient le règlement de zonage afin d'autoriser les maisons de chambres, les pensions et les logements secondaires dans les secteurs où le plan officiel l'autorise;

- c) ils adoptent des principes directeurs et des normes d'exploitation relativement aux nouvelles exploitations résidentielles de façon à permettre la création ultérieure de logements supplémentaires dans les nouveaux immeubles, en fonction de l'évolution des besoins dans les collectivités touchées, conformément aux principes décrits au paragraphe 5.1.a.

6 *CONTRÔLE*

6.1 Toutes les municipalités et les conseils d'aménagement contrôlent l'application des dispositions de la présente déclaration de principes, de la façon suivante :

- a) par l'adoption de méthodes permettant d'examiner :

- (i) la suffisance du nombre des terrains disponibles, au moins tous les cinq ans;

- (ii) l'éventail des types de logements construits chaque année dans le cadre des nouvelles exploitations résidentielles et de la concentration résidentielle;
 - (iii) le prix de tous les types de logements, par rapport à la courbe de répartition des revenus dans la région, et ce, chaque année;
 - (iv) la mesure dans laquelle sont atteints les objectifs visés dans le cadre du processus d'autorisation de l'utilisation du sol, et ce, tous les deux ans;
- b) par la soumission au conseil d'un rapport sur les résultats de l'examen effectué conformément aux dispositions du paragraphe 6.1.a.;
 - c) par la modification des documents d'aménagement et des procédures d'autorisation en fonction de l'examen effectué conformément aux dispositions du paragraphe 6.1.a., dans la mesure nécessaire pour les rendre conformes à la portée de la présente déclaration de principes;
 - d) par l'ajout d'une déclaration de principes au plan officiel pour souligner l'engagement de la municipalité ou du conseil d'aménagement à mettre en oeuvre les dispositions du présent article.

7 CHAMP D'APPLICATION DE LA DÉCLARATION DE PRINCIPES

- 7.1 Les comtés dotés d'un plan officiel peuvent mettre en oeuvre les principes directeurs de la présente déclaration de principes ayant trait aux plans officiels dans le cadre du plan officiel du comté, au nom de l'une quelconque ou de toutes les municipalités relevant de leur compétence, à la demande du conseil de la municipalité en cause.
- 7.2 Les cantons et les villages dont la population est inférieure à 5 000 habitants peuvent utiliser d'autres démarches pour mettre en oeuvre les principes de la présente déclaration de principes et atteindre ses objectifs, sauf :
 - (i) les villages attenants à un canton dont la population dépasse 5 000 habitants;
 - (ii) les cantons et les villages situés à l'intérieur de la région métropolitaine de recensement de London, Toronto et Windsor.

MOTOR VEHICLE TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These Applicants have been found to meet the fitness requirements pursuant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles with the prescribed filing fee, within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication that satisfies that Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

**MOTOR VEHICLE
TRANSPORT ACT, 1987**

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

O. Reg. 474/89.
Exemption—Ministry of Government
Services—MGS-100.
Made—July 27th, 1989.
Approved—July 27th, 1989.
Filed—August 3rd, 1989.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF GOVERNMENT
SERVICES—MGS-100.

Having received a request from the Ministry of Government Services that an undertaking, namely:

The construction, on about 7.88ha of surplus land at the north east quadrant of Highways #403 and #10, specifically Part Lot 15, Concession 2 NDS City of Mississauga, Region of Peel, of approximately 350m of roadway and underground services at an estimated cost of \$3.7 million to allow the construction by a private sector purchaser of a project which will include up to 1,750 apartment units in eight buildings,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Ministry of Government Services that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown will be interfered with by undue expense required to prepare an environmen-

tal assessment for an activity for which significant adverse environmental impacts have not been identified.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. There would be undue expense in the preparation of an Environmental Assessment for an undertaking which has been subject to the public process required by the *Planning Act*, 1983.
- B. There would be undue expense in the preparation of an Environmental Assessment for an undertaking which has been demonstrated by application of the screening criteria for exemption orders to only have impacts which can be addressed through mitigation measures. The mitigation measures will be added to the draft plan of subdivision approval, as conditions, as the planning process proceeds under the *Planning Act*, 1983.

This exemption is subject to the following terms and conditions:

1. The Ministry of Government Services shall conduct an environmental survey of the site proposed following the Ministry of the Environment's "Guidelines for the Decommissioning and Cleanup of Sites in Ontario" and a report of the findings of this survey shall be submitted to the Environmental Assessment Coordinator, Central Region, Ministry of the Environment for review and approval prior to construction of the undertaking.
2. A noise study shall be undertaken at an appropriate stage in the planning process to provide information which may influence the placement, orientation or construction of the buildings on the site.
3. Appropriate erosion control measures will be developed and implemented during construction to minimize the release of sediment-laden storm drainage at the site. Such measures will be reviewed with the Environmental Assessment Coordinator, Central Region, Ministry of the Environment prior to implementation.
4. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which

an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.

5. Where any activity which is the subject of this order is being carried out as or is part of an undertaking which is the subject of another exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.

6. This order shall expire if construction has not commenced by December 31, 1991.

Exemption—Ministry of the Environment—MOE-38.

Filed—August 3rd, 1989.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF THE ENVIRONMENT—MOE-38.

Having received a request from the Regional Director, Northwestern Region, Ministry of the Environment, that an undertaking, namely:

The activity of managing PCB contaminated wastes which may be found in the soil, rock and equipment at the Atikwa Lake property of Consolidated Maybrun Mines Ltd., at mining claims K15373 and K15374, registered in the Land Registry Office for the Land Titles Division at Kenora; which management activities involve the securing and control of contaminated wastes, remediation of contaminated bedrock, gravels, soils, concretes, equipment and the on-site disposal by storage of contaminated wastes including electrical transformers,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Regional Director, Northwestern Region, that if the undertaking is sub-

ject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The time which would be involved in preparing an Environmental Assessment and seeking approval under the Act would significantly delay the implementation of the undertaking, exacerbating the following situations:

(i) Contaminants from equipment located on the property have migrated to nearby soils, gravels and bedrock. There is evidence of some mobility of these contaminants in a downhill direction in the watershed which drains towards Atikwa Lake. Since contaminant inputs such as PCBs biomagnify through the food chain, failure to take action may result in the contamination of the aquatic life of surface waters in the watershed and of Atikwa Lake; and

(ii) Members of the public may be exposed to contaminants.

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Immediate action in managing the contaminated wastes will minimize the potential injury and damage cited above;
- B. Implementation of the undertaking as soon as possible will avoid further potential public exposure to, and migration of, contaminated wastes.

This exemption order is subject to the following terms and conditions:

1. No wastes other than contaminated materials from the management activities being carried out under this order shall be disposed of pursuant to this order by storage at the site.
2. This undertaking involves activities associated with the management of wastes, including,
 - (a) the construction and use of a storage building;
 - (b) the clean-up and consolidation into the storage building of wastes, including contaminated soils, rock, gravel, concretes, wood, metal, equipment and materials associated with the clean-up activities.

3. The undertaking shall be monitored by the Ministry of the Environment or its agents or both to ensure that the waste management activities do not result in injury or damage to persons and property.

4. A written report shall be prepared on the undertaking. The report shall describe the activities and how the terms and conditions of this order were complied with. The report shall be submitted by the Regional Director, Northwestern Region of the Ministry of the Environment to the Director of the Environmental Assessment Branch for filing in the public records maintained for the purposes of Section 31 of the Act. This report is to be received by the Director of the Environmental Assessment Branch six months after completion of the clean-up. O. Reg. 475/89.

MOTOR VEHICLE TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These Applicants have been found to meet the fitness requirements pursuant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles with the prescribed filing fee, within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication that satisfies that Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

THE ONTARIO HIGHWAY TRANSPORT BOARD

PUBLIC NOTICE

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS

The Applicants listed herein have applied for licences to operate an extra-provincial truck undertaking under Part II of the Motor Vehicle Transport Act, 1987. The Applications were published in the Ontario Gazettes of April 15, July 23 and July 30, 1989.

Notices of Objection and written evidence were filed on these applications, within the time prescribed, by interested persons. The Ontario Highway Transport Board has considered the evidence filed and is satisfied that in the absence of evidence to the contrary the operation of the extra-provincial truck undertaking in respect of which the licences are sought would likely be detrimental to the public interest. Any other interested persons who may wish to make representations or wish to file an objection and written evidence shall do so at least fifteen (15) days before the date set for hearing.

TAKE NOTICE that if any person who is a party to these proceedings does not attend at the hearing, the Board may proceed in his or her absence and such person is not entitled to any further notice in the proceedings.

Accordingly, the Board has directed that public hearings be held at the Board's Chambers, Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario as indicated hereunder:

For further information with respect to these hearings, members of the public are advised to contact the Secretary of the Board.

This Act would allow the Town to pass by-laws for prohibiting or regulating the placing or dumping of fill in defined areas in the Town of Oakville, for requiring that a permit be obtained for the placing or dumping of fill, for prescribing conditions relating to such permits, and for requiring that fill dumped or placed contrary to the by-law be removed.

The Act provides for an appeal to the Ontario Municipal Board where a permit application is

refused or where there is an objection to a condition of the permit.

No by-law passed under the proposed Act would apply in situations already governed by certain provisions of the *Environmental Protection Act*, the *Conservation Authorities Act* and the *Public Transportation and Highway Improvement Act*.

The application will be considered by a Standing Committee of the Legislative Assembly. Any person who has an interest in the application and who wishes to make submissions, for or against the application, to the Standing Committee should notify, in writing, the Clerk of the Legislative Assembly, Queen's Park, Toronto, Ontario M7A 1A2.

MOTOR VEHICLE TRANSPORT ACT, 1987

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These Applicants have been found to meet the fitness requirements pursuant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles with the prescribed filing fee, within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication that satisfies that Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle

Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

MOTOR VEHICLE TRANSPORT ACT, 1987

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

MOTOR VEHICLE TRANSPORT ACT, 1987

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. These applicants have been found to meet the fitness requirement in like manner to section 6 of the

Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7 (4) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10 (1) of the Truck Transportation Act, 1988, S.O. 1988, Chapter 64, and that the request is not frivolously made.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

(3) For the purpose of calculating a calculated retention time, each direct discharger shall measure or estimate the daily flow of a stream at a location or set of locations representative of the flow of the stream, using methods, devices and calculations that are capable of accuracy to within plus or minus 20 per cent of the actual flow.

(4) For the purposes of subsections (7) and (8), a calculated retention time must be calculated on or before the day on which the direct discharger is required to submit an initial report under subsection 14 (1).

(5) Subject to subsections (7) to (9), each direct discharger shall collect each sample required to be collected from a process effluent sampling point, minewater effluent sampling point or smelter-refinery effluent sampling point as a composite sample.
